

NIMBO FORK FISHING REPORT MARCH 2010

In this month's newsletter :

- Recent successes "matching the hatch"
- Special offers on Accommodation and Flies
- We still have a few places available for the Easter Weekend!

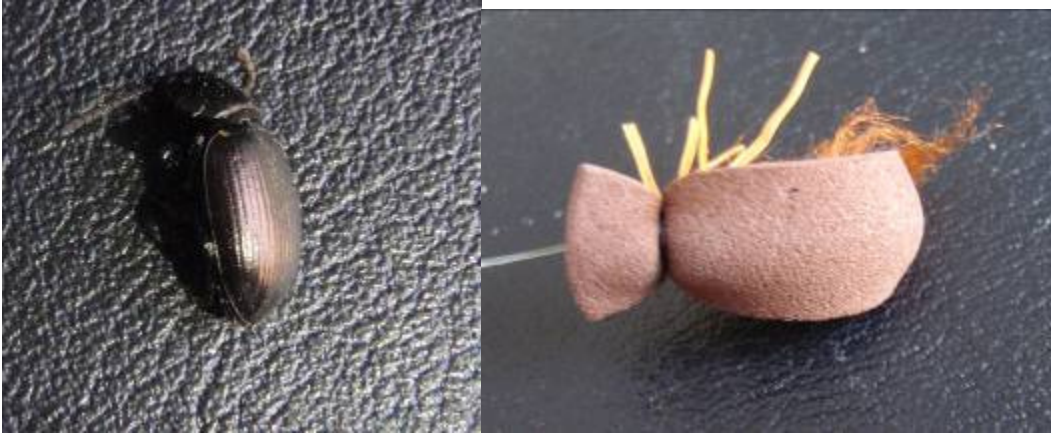

Some recent guests arriving by chopper

FISHING UPDATE

The great season continues! The Tumut River flow is now down at its usual winter levels around 500ML per day. The water is low and clear, still cool enough, with the odd dirty day as a result of recent rains.

"Matching the hatch" is particularly important at this time of the year when the water flow is slow and the fish have time to pick their food. There have been plenty of small brown beetles around the lodge this week and the artificial pattern has been very successful in tagging some nice rainbows up to 3 pound.

A natural beetle and the artificial

Later in the evening the mayflies have been everywhere, and most of the lighter coloured patterns have been working well. Small hopper patterns are also still going well.

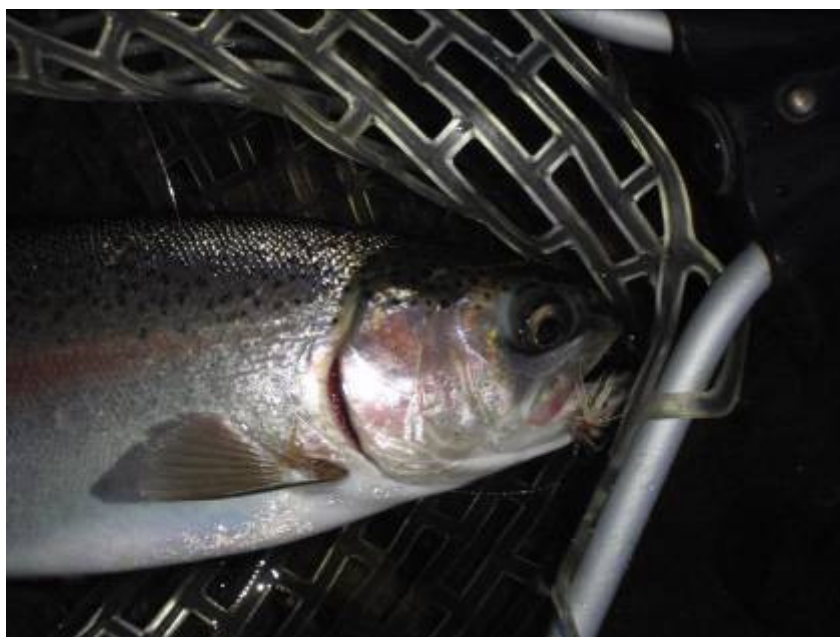

A small hopper pattern

After dark the larger attractors are coming into their own.

A popular attractor patter

A nice 2 ½ pound rainbow in the net

In the evening all the fish are being caught on the dry fly, but throughout the day our guides have had some prolific catches using nymphs and swinging soft hackles below them.

A couple with some excellent fish!

The stomach contents of an unfortunate trout

Once again nearly all the visitors to the Lodge have caught good fish and had several near landings, and left very happy!

SPECIAL OFFERS

If you need to stock up on any of the flies that are working at present, just give us a call to get a 20% discount on our current favourites including our hopper patterns. Flies are \$1.90 each when ordered in minimum lots of a dozen!

We are also still offering a complimentary bottle of vintage Tyrells Vat 9 Hunter Valley Shiraz for every booking of two nights or more, which has proved popular!

THE TROUT PONDS

Subject to weather conditions we plan to restock the trout ponds before Easter,, so our casting classes will be relocated to the pond area.

OTHER ACTIVITIES

At the lodge, our culinary classes continue to be popular, as our chef Aaron Grant guides our guests through all stages of cuisine preparation.

Meanwhile the spa classes have also been very popular.

BOOKINGS FOR THIS SEASON

The season end is fast approaching and we already have quite a few blackout periods. Luckily the season ends on 14 June so you still have time to get that weekend away before the off-season.

For more details call us on 02 6944 9099 or Chris on 0434 085 945.

Best Wishes from Chris and Maureen and everyone at Nimbo Fork.

There's a spot for you at Nimbo Fork...
